

Civil Engineering Department had organized seminar in collaboration with Khodiyar Cad Centre. Mr Himmat Shankhla delivered an expert talk on software advancement in civil engineering for the final year students of B.Tech at J.D. Hall at 1:50 to 3:30 PM on 31/07/2018. Total 85 students were effectively participated in that seminar. He delivered an expert talk on different software as Revit and Autocad3D. He explained each steps in detail how it is useful in civil engineering field.

The session was interactive and very useful for the students of final year engineering. At the end of the session healthy questionnaires was raised by the students and expert gave the answer very nicely. Students got general background knowledge about importance and advancement of software in civil engineering field.
