# Placement Opportunities and Policies

Date: 05/03/2021

Speaker: (1) Mr. Fenil Khatiwala

Total Number of Students Benefited: 252 students

## Objective:

The session on “Placement Opportunities and Policies” for pre-final year students of Department of Computer Engineering and Information Technology has been conducted on 5th March 2021, at J.D. Hall C. G. Patel Institute of Technology – Uka Tarsadia University, Bardoli in order to spread literacy among the aspirants related to placement activities. The program objective was to let the students know about the guidelines and procedures that need to be followed during placement drives. The students were also guided about various opportunities available for their career.

## Description about session:

The session was initiated by Mr. Fenil Khatiwala (T&P Co-Ordinator) for briefing the students about the training and placement activities. This session has been specially organized for pre-final year students to make them aware about the entire T&P procedures. The students have also been instructed regarding rules and regulations to be followed at departmental level. The session was started by explaining students about the placement procedure including company invitations, informing students regarding companies coming for placement, collecting responses from students regarding their career selection, activities on the day of placement (pre-placement talk, written test, Interview) and final selection. The students also have been informed about departmental rules and regulations along with university T&P process and policy as mentioned in university T&P portal. The speaker has also explained students regarding the career opportunities in emerging field of technologies like Artificial Intelligence, Machine Learning, Full stack development, UI/UX Designing etc. The head of both the departments also motivated students to take an active participation in all the T&P drives.

## Conclusion:

The sincere gratitude towards all who helped in making this session such a resounding success. First and foremost hearty thankfulness to department head Dr. Devendra Thakor, Computer Engineering and department head Ms. Purvi Tandel, Information Technology for gracing such session for the students. Next is to thank the speaker for delivering excellent presentation to make this session interesting and meaningful. The profound gratitude goes to our all faculty T&P members of Computer and Information Technology department for their presence in the session and specially providing their students with the moral support and guidance. A sincere thanks to all the coordinators and volunteers who have been running around, doing a lot of things in background and making the session a great success. Finally, thanks to the wonderful students who have turned up in such a great number to attend the session sincerely. The event was highly considered to be successful by combine efforts of all.
